The Warbling hole

Early dawn when the blazing sun was rising and when the trees were rustling. A ~~bird~~ beautiful bird slipped down from a very high tree. And a little girl with her old granddad was playing a game and they in the game you have to get as close as you can to a bird. But the birds flew in the direction of the blazing sun over the rustling trees. Just in front of them they saw a ~~was~~ Wondrous Sweet Watring hole.

The watering Hole.

One misty Morning, in South Africa the beautiful, blazing Sun rose in the distance ahead. The people of South Africa, woke to up to the sound of birds singing and tweeting and the eco of animals calling. ✓

The trees were swishing and the water rippling, it was as peaceful as the breeze. ✓ The mist was misty it caught the edge of my eye. ✓ The water was so fresh I scooped it up, the liquid slipped through my fingers, Suddenly I noticed the bright orange Sun was reflecting on the water, it was bright as a glass in the light. ✓

AS I strolled along the edge of the water hole the mud was getting sludgy and ~~slipier~~ slipier under neath my bare feet.

Wonderful . You have used many words from the 'wordles' we created and work well with your partner when rehearsing your writing. Well done. ✓
