

## The rainforest

Most of the rainforest is in South America .The are a lot of different plants in the rainforest.

### Seasons

The rainforest does not have seasons like we do. The rainforest does not have a winter or summer just a rainy season and a dry season.

### Animals

There our over 250 different animals in the rainforest. Some of the animals you will find are the spider monkey and the orangutang. They our very rear to find in the rainforest because orangutangs do not like rain.
