

April 2010

You may be aware that the Government has made a commitment to supporting the provision of One-to-One Tuition for pupils who need it to help them secure basic skills in literacy and mathematics.

Arnold Hill School has been offered the chance to take part in this initiative. Funding has been allocated for us to provide additional tuition to support pupil progress in English & Mathematics at Key Stage 3. We can therefore offer ten one hour sessions of individual one-to-one tuition. This will reinforce teaching received in English/Mathematics lessons in class. The additional lessons will be taught by a specialist tutor for 2 hours over 5 weeks (see details below) and will commence after the May half-term.

... has been identified to receive this additional one-to-one support in school. Each child will have an individual programme of tuition and activities tailored to their particular needs. This will include suggestions for follow up work at home where appropriate.

I hope that you will support ... in this work, which promises to be both stimulating and fun. If you would like to discuss this programme of support further please contact me at the school.

In the interests of developing our practice further we always welcome feedback from parents. ... will be completing a record of his achievements throughout the tuition programme. Your comments about Alex's progress would be most welcome.
