

In order to get the feeling from the students a vote was set up to find out if they felt that their learning had been enhanced using the VLE. This vote was taken over two classes. One had limited experience of using the Classes system where the other had used it constantly.

Although the vote was completed in both classes the group that had use the most only one felt it had not benefited him due that fact that he did not have a computer at home or access to the internet.
